Ex-Floodlight F2C LED

Floodlight with high-power LED module

4

The lighting solution for harsh and hazardous applications

F2C LED floodlights are designed to withstand the harshest conditions within Zone 1 IIC gas environments, providing ideal solutions for a wide range of applications.

F2C LED combines a shock and vibration resistant solid state luminaire with the low cost of ownership and energy efficiency of Crouse-Hinds Series technology.

High-performance LEDs and electronic driver provide light where you need it, at a fraction of the operating costs of HID lighting technologies.

Suitable for Zone 1 & Zone 2 Ex-gas and Zone 21/22 Ex-dust hazardous area, such as heavy industrial, chemical, petrochemical or pharmaceutical facilities, platforms, shipyard, electric power, loading docks, wastewater treatment, paper mill.

Simple and cost-effective installation

High efficiency drivers and LED chips provide reliable low cost operation and total output over 16000 lm with energy saving up to 51% compared to conventional floodlights.

Features

- High Efficient & Energy saving compared to conventional floodlights
- Wide temperature range in IIC and IIB+H2 hazardous environment
- Universal bracket with wide installation angle, vertical adjustment from -90° to $+60^{\circ}$
- Lead- and mercury-free and environment-friendly
- High lumen output
